Tamper Proof Prescription Pads and Tamper Resistant Prescription Paper

Secure Prescription Pads

Don't purchase prescription pads that just months from now will not offer the security you want and the security that the government demands

Our pads include:

- Tamper resistant background ink that shows attempts to alter script by patient.
- Hidden security because "VOID" appears when photocopied.
- When rubbed or heated thermochromatic ink shows "SECURE."
- Minute printing on the edges of the pad forms a line when digitally scanned or copied (*This is used in US currency.*)
- Includes reverse printed RX in upper corners of pad that appears white when photocopied.
- Each order includes a numeric identifier so lost or stolen pads can be invalidated.
- Sequentially numbered sheets assure internal and state mandated record keeping.
- Your information is printed using penetrating magnetic ink to prevent chemical lifting of information during forgery.
- One and two part pads are offered.

Standard One-Part Prescription Pads:	Standard Two-Part Prescription Pads:
5 pads of 100 sheets - \$111.02	5 pads of 50 sheets - \$127.17
10 pads of 100 sheets - \$149.97	10 pads of 50 sheets - \$190.82
20 pads of 100 sheets - \$172.77	24 pads of 50 sheets - \$316.16

Shipping and handling: \$12.00

Secure Paper for Computer Printing of Prescriptions

Our paper includes:

- Tamper resistant background ink that shows attempts to alter script by patient.
- Hidden security because "VOID" appears when photocopied.
- When rubbed or heated thermochromatic ink shows "SECURE."
